

# The simplest, toughest, safest towbar step ever

- ✓ Simple to fit
- ✓ Tough by design
- ✓ Safe by protection

**SAFE-T-STEP™** is the best solution to preventing injuries and mishaps around your vehicle's tow-bar/hitch, as well as acting as an ingenious, tough step-up. **SAFE-T-STEP™** allows you to access your vehicle risk free and with ease. While other steps may require you to remove the whole hitch to fit the step, not the **SAFE-T-STEP™** it simply flips down over the existing tow ball and never needs to be removed. Now you, your family or your employees can move about with confidence and safety. You'll quickly realise why so many companies, government departments and individuals swear by this simple, elegant innovation and you won't believe how easy it is to install.

Safe-T-Step

Ball Hinge Adaptor

Pintal Hinge Adaptor

Extension Bar

**SAFE-T-STEP™** is made from high quality, high impact, high tensile, UV stable nylon tested to one million cycles. Designed with anti slip checker plate tread and rated to 200kg. The hinge adaptors and extension bar components are manufactured from high grade anti corrosive zinc plated steel for years of service.
