

SATIN SPRAY FURNITURE LACQUER

DESCRIPTION & USES:

Satin Spray Furniture Lacquer is an Aerosol of single pack pre-catalysed lacquer used for fixture and furniture finishing's. Satin spray furniture lacquer is designed for interior use only and is formulated for repair work on most finishes.

PROPERTIES:

Colour:	Clear
Gloss:	30% Satin
Solid Content:	>30%
Shelf Life:	12 months

APPLICATION:

Surface Preparation:

Remove all traces of silicon, wax and grease with wax and grease remover or mineral turps. For maximum adhesion, scuff with fine grade of sandpaper and smooth edges of chips and scratches. Wipe off all loose sandings, ensure surface is dry.

Application:

The nozzle produces a fan like spray similar to a professional spray gun. Spray with smooth, even, horizontal strokes about 10-15 cm from the job. Spray several light coats instead of one heavy coat, which may sag. Apply until coverage is obtained. In cold weather, warm can to room temperature for optimum spraying performance. Allow overnight drying before handling.

FOR INDUSTRIAL USE ONLY

Users are advised to make their own tests to determine the suitability of products for their own purposes
