INSTALLATION DIAGRAM

CLEANING AND MAINTENANCE

- Cleaning operations must only be carried out when the appliance is completely cool.
- Clean the appliance regularly, preferably after each use
- Abrasive cleaners or sharp objects will damage the appliance surface; you should clean it using water and a little washing up liquid

SAFETY INFORMATION

- The heating and cooking surfaces of the appliances become hot when in use, take all due precautions.
- Unstable pans should not be used on the appliances as they can cause an accident by tipping or spillage.
- Never leave the appliance unattended when cooking.
- Please refer to the manual for more information
