

ASSORTED WAX PUTTY BRICK

Wax putty bricks are used by professional furniture manufactures/polishers, to fill imperfections on timber products, e.g.: splits, nail holes, gouges, scratches.

These wax putty bricks can discuses larger blemishes on cupboards, wall paneling, doors, built in furniture, free standing furniture, tables, chairs, etc.

For a professional finish, all repairs with the wax putty bricks should be completed, before the final coat of lacquer.

Directions for use

Draw the wax putty brick down heavily on the area to be filled (e.g. scratch, dent, nail hole etc.) Fill the area by rubbing the wax over the blemish and remove excess wax by using a scraper. Lightly sand and re-coat or simply polish off with a soft cloth.

Handy tip

In cold weather warm the wax stick up by holding in your hand or keep in your pocket.

FOR INDUSTRIAL USE ONLY

Users are advised to make their own tests to determine the suitability of products for their own purposes
