

# MD4102 Flat Wire Side Pull Out Basket Assembly Manual 150MM

unit: mm

## Accessories List

Please check the list of accessories before installing the product

NO.	Name	QTY
A	Flat Wire Basket 150	1
B	18" Soft Close Slide	2
C	ST4*16 Screws	14
D	M4*5 Screws	2
E	Arch divider accessory	8

### Installation requirements

Cabinet size requirements: inner space width (W)  $\geq 114$ , inner space depth (D)  $\geq 500$ , inner space height (H)  $\geq 560$ .

### Installation step 1: Install the slide

Draw the hole position line of the corresponding size, and fix the slide with ST4\*16 cross countersunk head self-tapping screw (C), as show in figure.

### Installation step 2: Install the basket

- Place the (A) basket on the slide as shown in the figure.
- Align the side holes of the basket with the mounting holes of the slide, and fix the basket with M4\*5 cross round head with medium wire (D).

M4\*5 cross round head with medium wire

### Installation step 3: Draw the installation hole line on the door panel

As shown in the figure: Find the center line of the door panel, and then draw the installation hole line according to the size requirements.

#### Installation step 4: Install the door panel on the basket

The upper and bottom middle holes of the basket (A) align the intersection points of the installation holes on the door panel, and fix the door panel with ST4\*16 cross countersunk head self-tapping screw (C), as shown in the figure.

ST4\*16 cross countersunk head self-tapping screw

#### Installation step 6: Put the arch divider accessory

Put the arch divider accessory (E) to the desired size of the basket (A) frame.
