

YIELD

Penetrating Release Agent

Loosens rust instantly without damage so that parts can be re-used

- Frees nuts, bolts and fittings
- Removes rusted fasteners without breakage
- Penetrates and helps prevent further corrosion
- Contains moly lubricant for increased protection

PENETRATES & LUBRICATES

FEATURES AND BENEFITS

YIELD loosens rust and corrosion instantly. It also contains special inhibitors that prevent further rust and corrosion and prolong the life of parts.

YIELD loosens frozen nuts, bolts and fittings without damage to metal or metal threads.

YIELD penetrates and releases parts quickly allowing quicker work and less costly downtime. It penetrates and cleans even hard-to-reach, close-tolerance areas.

YIELD cleans grease, dirt and sludge. Use for loosening stuck metal parts, lubricating air driven tools, storing dies, removing broken taps, dismantling equipment etc.

YIELD

Penetrating Release Agent

AREAS OF USE

- Councils
- Machine shops
- Garages
- Construction
- Utilities
- Schools
- Plumbing
- Piping
- Industrial plants
- Rail Yards, Dockyards

APPLICATION

- Rusted rims
- Nuts and bolts
- Frozen battery terminals
- Heavy construction equipment
- Motor block studs and bolts
- Assembly machinery
- Aluminium heads
- Plumbing
- Cylinder blocks
- Flanges

Technical Data

CONTAINS	Moly for superior lubrication
DOES NOT CONTAIN	Chlorofluorocarbons or acid
WATER SOLUBILITY	Insoluble
PENETRATION	Allow 5 – 30 seconds to penetrate
APPROVED	Non food-contact Lubricant Type C

* Consult the label for full instructions and precautions before using this product
